What is FRC?

Robotics for All

FRC (FIRST Robotics Competition) is an international competition highlighting robotics. In creating a yearly challenge, FIRST engages hundreds of thousands of students around the world to showcase their innovation, skill, and passion for STEM.

FIRST is an initiative centered around promoting robotics, teamwork, and STEM education in youth. By using creative games, FIRST inspires students to learn more about the world of STEM and gain opportunities they may have never been able to.

What is Chinguacousy Robotics?

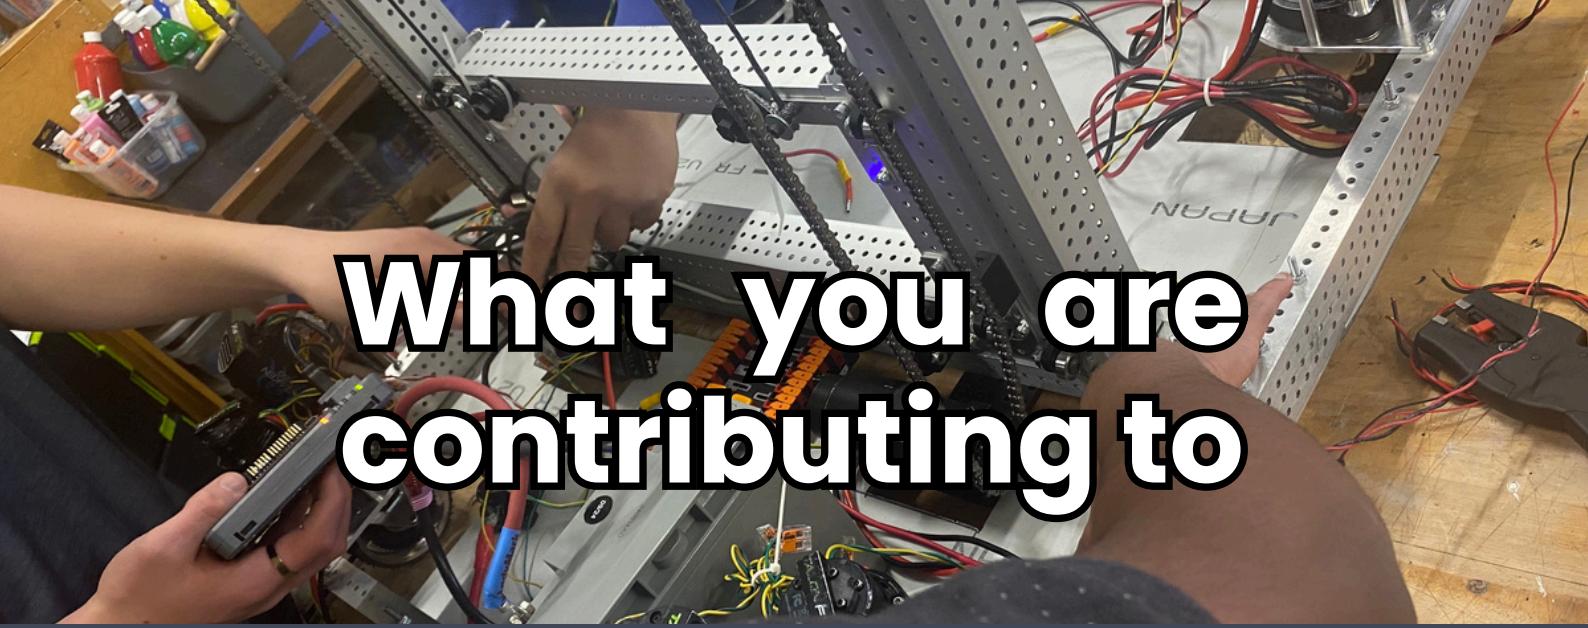

High School, High Hopes.

Based out of Chinguacousy Secondary School in Brampton, Ontario, we are a Robotics team fully powered by high school students!

We provide extraordinary opportunities to students, such as:

- *Applying Electrical/Mechanical Engineering skills*
- *Using professional hardware and software*
- *Building and competing with a robot designed in house*
- *Developing skills such as engineering, focused design, large-scale project management, robotics programming, teamwork, and strategic planning.*

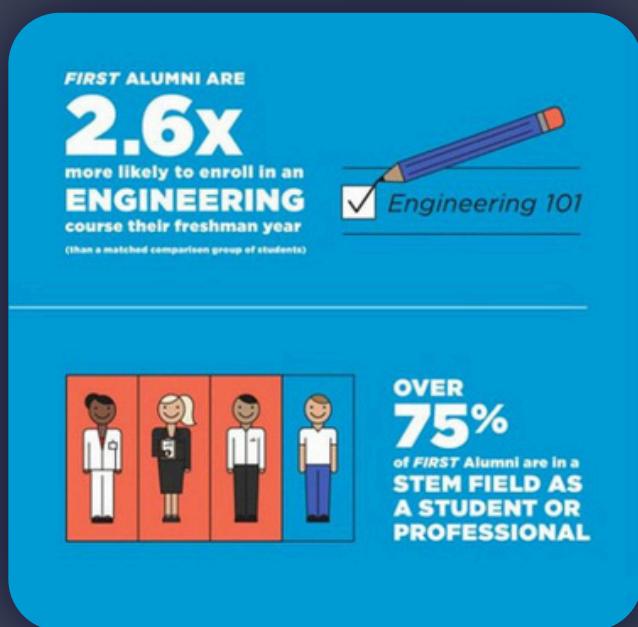

What you are contributing to

A Family of Students

Chinguacousy Robotics is more than just a team of students who work on robots. We work together as a community, and have been for the past 10 years! We would love to introduce you as a benefactor of our family!

Investing for the Future

As we progress into the future, STEM is becoming more and more of an important asset. FRC has been shown to improve essential skills within contestants, making it an in demand trait for the future!

Why we need you

Costs

To provide state of the art equipment and software to our students, it's crucial that we have enough funds to support our operations. Competitions with FIRST can cost up to **\$8,500** to enter and **\$20,000** to compete internationally!

Not to mention the fact that to remain as a competitive team, we need to buy new parts and tools to build a competitive and innovative Robot! This will cost us approximately **\$25,000 upwards**.

Non-Monetary Donations

While monetary donations are one way to help, we appreciate other donations of value! These may include software, parts, tools, your time and expert knowledge and experience, is just as important as monetary donations!

Donor Benefits

How we can help each other!

We've talked about how you can help us out, here's what we can do for you! All donations will help support our STEM journeys. ***Tax receipts will be given in March, 2026 for all donations above \$50.***

Tier 4 \$5,000+ in Value

- All benefits from previous tiers.
- Logo on the team trailer.
- Larger Logo Sizes.
- Mentions on televised competitions.
- Presentation with Robot Demo.

Tier 3 \$3,000 - \$4,999 in Value

- Logo on the team website and banner.
- Logo on team merchandise.
- Logo on the team robot.
- Special Promotion on all our Social Media.

Tier 2 \$1000 - \$2999 in Value

- Logo on the team website and banner.
- Logo on team merchandise.
- Mentions on Social Media.

Tier 1 \$100 - \$999 in Value

- Logo on the team website.
